

The AhaBulb Party Game

STUFF EVERY DOG OWNER SHOULD KNOW

How to play (30 seconds)

1. The reader reads a card and its three answers out loud.
2. Everyone says "One, two, three, Goldilocks!" and holds up 1, 2, or 3 fingers.
3. The reader flips the card and reads the answer and the Why.
4. Everyone who was right takes a point.
5. The reader reads the joke with a straight face. Anyone laughs or groans? The reader takes a point. Nobody got it right? The reader takes a point.
6. Pass the deck left. Most points when the points run out wins.

What you need

These cards and the point tokens on the last two pages. No tokens? Use coins, buttons, pebbles, or marshmallows. 3 to 10 players, ages 8 and up.

Expert rule: Bet It

Before the reader flips the card, you may put one of your points on your answer. Right: take your normal point plus one extra. Wrong: your bet goes back to the pile. That's it.

Printing

Print single-sided, on cardstock if you have it. Cut on the dashed lines. Each card is a 3.5 x 5 inch index card. The answer half is upside down on purpose, so the table can't peek. Cards 1 to 50 of 110. More cards and the free daily online game at sesk.info. Built 2026-10-14.

DOGS

Which of these is a core vaccine that is recommended for every dog?

- A** Lyme disease
- B** Bordetella
- C** Rabies

FLIP FOR THE ANSWER

#4332

SESK.INFO

Why was the puppy crying? She was having a ruff day.

STRAIGHT FACE

WHY Core vaccines protect against the most serious diseases, so vets recommend them for all dogs. Rabies, distemper, parvovirus and adenovirus are on that list.

C Rabies

DOGS

Which of these is a traditionally non-core dog vaccine, given based on lifestyle risk?

- A** Distemper
- B** Bordetella
- C** Parvovirus

FLIP FOR THE ANSWER

#4333

SESK.INFO

Why did the dog do so well in school? He was the teacher's pet.

STRAIGHT FACE

WHY Non-core vaccines are given when a dog's lifestyle or home area raises its risk, such as boarding or daycare. Distemper and parvovirus are core for all dogs.

B Bordetella

DOGS

Why do puppies need repeated vaccine doses until about 16 weeks old?

- A** The vaccine only lasts about a week
- B** Puppies only respond to vaccines in summer
- C** Antibodies from the mother can block the vaccine

FLIP FOR THE ANSWER

#4336

SESK.INFO

Why does my newborn puppy never want to leave my side? He's in puppy love!

STRAIGHT FACE

WHY Puppies get antibodies from their mother, and those can interfere with a vaccine. Nobody knows exactly when they fade for each puppy, so doses repeat until after 16 weeks.

C Antibodies from the mother can block the vaccine

DOGS

After the puppy series, how often are core vaccines like parvovirus usually boosted?

- A** Every 3 years
- B** Every month
- C** Every 6 weeks

FLIP FOR THE ANSWER

#4337

SESK.INFO

What should you do for your pup's first birthday? Throw her a paw-ty!

STRAIGHT FACE

WHY After a booster within the first year, many core vaccines are repeated every 3 years. Annual boosters are not necessary for these core vaccines.

A Every 3 years

DOGS

Where should you check to learn which vaccines your dog is legally required to have?

- A** The dog food label
- B** Your local or state health department
- C** The pet store clerk

FLIP FOR THE ANSWER

#4339

SESK.INFO

STRAIGHT FACE
Why are border collies such good listeners? Because you can tell they really herd you.

B Your local or state health department
WHY Rules differ from place to place, and rabies shots are often required by law. Health departments publish the specific regulations for your area.

DOGS

How do dogs get heartworm?

- A** From eating infected grass
- B** From a mosquito bite
- C** From another dog's sneeze

FLIP FOR THE ANSWER

#4347

SESK.INFO

STRAIGHT FACE
Why did the mosquito go to the dentist? To improve his bite!

B From a mosquito bite
WHY A mosquito that bites an infected animal picks up baby worms, then passes them to the next pet it bites. Heartworm does not spread by contact between dogs.

DOGS

How often should dogs be tested for heartworm, per the American Heartworm Society?

- A** Never, if on prevention
- B** Every 5 years
- C** Every year

FLIP FOR THE ANSWER

#4348

SESK.INFO

STRAIGHT FACE
What do you get when you cross a dog and a calculator? A friend you can count on.

C Every year
WHY Annual testing makes sure the preventive is working and catches any infection early. It is usually done at a regular vet visit.

DOGS

How many months a year should dogs get heartworm preventive?

- A** All 12 months
- B** Only the 3 summer months
- C** About 6 months

FLIP FOR THE ANSWER

#4349

SESK.INFO

STRAIGHT FACE
Our dog brings us the newspaper every day. Funny thing is, we've never subscribed to any.

A All 12 months
WHY The American Heartworm Society advises giving heartworm preventive every month of the year. Mosquitoes can show up outside normal seasons, and even indoor dogs can be bitten.

DOGS

Do indoor-only dogs need heartworm prevention?

- A** No, only outdoor dogs are at risk
- B** Yes, indoor pets are at risk too
- C** Only in winter

FLIP FOR THE ANSWER

#4350

SESK.INFO

STRAIGHT FACE
What do you call a pug that is undercover?
Indognito.

B Yes, indoor pets are at risk too
WHY Infected mosquitoes can slip into homes. Indoor and outdoor dogs are both at risk, so prevention is for every dog.

DOGS

In how many US states has heartworm disease been diagnosed?

- A** Only southern states
- B** Only about 10 states
- C** All 50 states

FLIP FOR THE ANSWER

#4351

SESK.INFO

STRAIGHT FACE
Why do dogs wag their tails? Because no one else will do it for them.

C All 50 states
WHY Heartworm is not just a southern problem. It has been found in dogs in every state, which is why testing and prevention are advised everywhere.

DOGS

How long do heartworm larvae take to grow into adult worms?

- A** About 6 months
- B** 2 days
- C** About 3 years

FLIP FOR THE ANSWER

#4352

SESK.INFO

STRAIGHT FACE
What is the fastest dog in the world? A Labraghini.

A About 6 months
WHY After an infected mosquito bite, the larvae take about six months to become adults. Adults can live for 5 to 7 years in a dog.

DOGS

Where do adult heartworms live in a dog?

- A** In the stomach
- B** In the heart, lungs and blood vessels
- C** In the ears

FLIP FOR THE ANSWER

#4353

SESK.INFO

STRAIGHT FACE
What do you get if you cross a sheepdog with a rose? A collie-flower.

B In the heart, lungs and blood vessels
WHY Adult heartworms are long worms that live in the heart, lungs and the blood vessels around them. That is why the disease can hurt a dog's heart and breathing.

DOGS

Where does most of a flea population live?

- A** On the dog's back
- B** In the environment, not on the dog
- C** In the dog's food bowl

FLIP FOR THE ANSWER

#49359

SESK.INFO

STRAIGHT FACE
What is the most faithful insect? A flea. Once they find someone they like, they stick to them!

B In the environment, not on the dog
WHY Eggs and larvae develop in the home and yard, so only a small share of fleas are on the pet at any time. Clean bedding and carpets as part of treatment.

DOGS

Dogs can get which parasite from fleas?

- A** Tapeworms
- B** Heartworms
- C** Lungworms

FLIP FOR THE ANSWER

#49360

SESK.INFO

STRAIGHT FACE
What do you call a cheerful flea? A hop-timist!

A Tapeworms
WHY Fleas carry the tapeworm and other diseases. Heartworm comes from mosquitoes, not fleas.

DOGS

Many dogs are allergic to what part of a flea bite?

- A** Flea saliva
- B** Flea eggs
- C** Flea cocoons

FLIP FOR THE ANSWER

#49363

SESK.INFO

STRAIGHT FACE
How do you find where a flea has bitten you? Start from scratch!

A Flea saliva
WHY Many dogs and cats are allergic to flea saliva, which can cause intense itching. Chronic cases can lead to hair loss and thickened skin.

DOGS

By age 3, about how many dogs and cats show signs of dental disease?

- A** About 10 to 20 percent
- B** About 70 to 80 percent
- C** Almost none

FLIP FOR THE ANSWER

#49367

SESK.INFO

STRAIGHT FACE
My puppy isn't fat, he's just a little husky.

B About 70 to 80 percent
WHY Dental disease is very common. By age 3, most dogs and cats already have some signs, so regular checks and home care matter.

DOGS

How many adult teeth does a dog have?

- A** 28
- B** 32
- C** 42

FLIP FOR THE ANSWER

#4368

SESK.INFO

STRAIGHT FACE
What is a dog dentist's favorite tooth? The canine.

WHY Puppies get 28 baby teeth that fall out and are replaced by 42 adult teeth. The swap happens between 2 and 7 months of age.

C 42

DOGS

What is a normal body temperature for a dog?

- A** 98 to 99 F
- B** 104 to 105 F
- C** 101 to 102.5 F

FLIP FOR THE ANSWER

#4369

SESK.INFO

STRAIGHT FACE
Why was the dog such a good musician? Because he had perfect pooch.

WHY A dog's normal temperature is higher than a person's. Merck lists 101 to 102.5 F, and UC Davis lists about 100 to 102.8 F, so a reading in that range is typical.

C 101 to 102.5 F

DOGS

Bloat (GDV) in dogs is what kind of problem?

- A** A life-threatening emergency
- B** A harmless gas bubble
- C** A skin condition

FLIP FOR THE ANSWER

#4370

SESK.INFO

STRAIGHT FACE
What do dogs eat for breakfast? Pooched eggs.

WHY In bloat, the stomach swells and can twist. It cuts off blood flow and needs immediate veterinary care.

A A life-threatening emergency

DOGS

Which of these is a sign of bloat in a dog?

- A** Wagging more than usual
- B** Sleeping flat on the back
- C** Repeated dry retching

FLIP FOR THE ANSWER

#4371

SESK.INFO

STRAIGHT FACE
What is a dog's favorite food? Anything that is on your plate!

WHY Signs include restlessness, discomfort, rapid breathing, a swollen painful belly, drooling and retching without throwing up. Call a vet immediately.

C Repeated dry retching

DOGS

Bloat mainly affects what kind of dog?

- A** Tiny short-legged dogs
- B** Large, deep-chested dogs
- C** Hairless dogs

FLIP FOR THE ANSWER

#4372

SESK.INFO

STRAIGHT FACE
Which dog breed has never done anything wrong?
A Saint Bernard.

B Large, deep-chested dogs
WHY Large breeds with deep chests, like Great Danes and German Shepherds, are at higher risk. Merck calls a deep, narrow chest a proven genetic risk factor.

DOGS

At what body temperature is a dog in heatstroke territory?

- A** 105 F or higher
- B** 99 F
- C** 102 F

FLIP FOR THE ANSWER

#4373

SESK.INFO

STRAIGHT FACE
When a dog has a fever, what should you feed him?
Mustard, it's the best thing for hot dogs.

A 105 F or higher
WHY Heatstroke happens when a dog can no longer control its body temperature and it rises to 105 F or higher. Start cooling right away with cool water and get to a vet.

DOGS

ASPCA Animal Poison Control is available when?

- A** Weekdays, 9 to 5
- B** Only in summer
- C** 24 hours a day, every day

FLIP FOR THE ANSWER

#4374

SESK.INFO

STRAIGHT FACE
Why can't you tell a dog a knock-knock joke?
Because every time she hears knocking, she won't stop barking.

C 24 hours a day, every day
WHY If you think your dog swallowed something poisonous, call right away. A consultation fee may apply, but you get expert help any time.

DOGS

At least how often should a healthy adult dog see the vet?

- A** Every 5 years
- B** Once a year
- C** Only when sick

FLIP FOR THE ANSWER

#4376

SESK.INFO

STRAIGHT FACE
How do you know your dog is a genius? You ask him what two minus two is, and he says nothing.

B Once a year
WHY Dogs often hide pain and illness, so a yearly checkup can catch problems early. A vet can also tailor the plan to your dog's age.

DOGS

Per AAHA, about how often should senior dogs see the vet?

- A Once every 3 years
- B Only when they seem sick
- C Every six months

FLIP FOR THE ANSWER

#4377

SESK.INFO

STRAIGHT FACE
How can you tell if your dog is lazy? He only chases parked cars.

C Every six months
WHY AAHA says senior pets should be examined every six months. Older dogs can change quickly, and early checks can catch problems sooner.

DOGS

Per AAHA, a dog becomes a senior when it enters which part of its estimated lifespan?

- A The last 25%
- B The first 25%
- C The middle 50%

FLIP FOR THE ANSWER

#4378

SESK.INFO

STRAIGHT FACE
Why is my dog's back always sore? He's a mastiff.

A The last 25%
WHY A senior stage depends on breed and size because bigger dogs tend to age faster. AAHA defines it as the last quarter of the expected lifespan.

DOGS

Which of these can be a sign of dementia in a senior dog?

- A Growing a shorter tail
- B Changes in sleep patterns
- C Suddenly loving baths

FLIP FOR THE ANSWER

#4379

SESK.INFO

STRAIGHT FACE
A man was amazed to see his friend playing chess with his dog. That's the smartest dog I've ever seen! The friend said, Nah, I've beaten him three games out of five.

B Changes in sleep patterns
WHY Older dogs can get senility, also called cognitive dysfunction. Signs include changes in sleep patterns, loss of house training, getting lost in familiar places and less interest in people.

DOGS

Which kind of chocolate is generally the most dangerous for a dog?

- A Dark chocolate
- B White chocolate
- C Milk chocolate

FLIP FOR THE ANSWER

#4380

SESK.INFO

STRAIGHT FACE
What did the hungry dalmatian say after his meal? That hit the spots.

A Dark chocolate
WHY The more cacao in the chocolate, the more of the toxic ingredient it holds. Keep all chocolate out of reach.

DOGS

Chocolate, coffee and caffeine are risky for dogs because they all contain what?

- A** Tartaric acid
- B** Methylxanthines
- C** Allium compounds

FLIP FOR THE ANSWER

#4381

SESK.INFO

STRAIGHT FACE
How does a dog feel after a long workout?
Doggone tired.

B Methylxanthines
WHY Methylxanthines are stimulant chemicals. Chocolate, coffee and caffeine all carry them.

DOGS

Grapes and raisins can cause damage to which part of a dog's body?

- A** The ears
- B** The teeth
- C** The kidneys

FLIP FOR THE ANSWER

#4382

SESK.INFO

STRAIGHT FACE
What did the waiter say to the dog when he brought out her food? Bone appétit.

C The kidneys
WHY Tartaric acid is thought to be the toxic part, and dogs cannot process it, so grapes or raisins can lead to kidney damage. Never feed them as treats.

DOGS

Xylitol, a sweetener in some gum and baked goods, can cause what in dogs?

- A** Low blood sugar
- B** High fever
- C** Hair loss

FLIP FOR THE ANSWER

#4383

SESK.INFO

STRAIGHT FACE
What flavored beverages and treats do dogs enjoy most in the fall? Pup-kin spice.

A Low blood sugar
WHY Xylitol can cause low blood sugar and potentially liver damage, depending on the amount eaten. Check labels, and keep sugar-free products away from dogs.

DOGS

Onions, garlic and chives can harm a dog by damaging what?

- A** Its toenails
- B** Its red blood cells
- C** Its eardrums

FLIP FOR THE ANSWER

#4384

SESK.INFO

STRAIGHT FACE
How do you identify a dogwood tree? By its bark.

B Its red blood cells
WHY Onions, garlic and chives are Allium vegetables. They can upset the stomach and damage red blood cells, causing anemia. Cats are even more sensitive, but dogs are at risk too.

DOGS

Macadamia nuts can cause which signs in dogs?

- A** Extra energy only
- B** Shiny coat
- C** Weakness and tremors

FLIP FOR THE ANSWER

#4385

SESK.INFO

STRAIGHT FACE
What's a dog's favorite kind of pizza? Pupperoni.

C Weakness and tremors
WHY Macadamia nuts can cause weakness, incoordination, depression, vomiting, tremors and high body temperature in dogs. Cookies with macadamias count.

DOGS

After a dog swallows alcohol, how fast is it absorbed?

- A** Rapidly
- B** Only after a day
- C** Not absorbed at all

FLIP FOR THE ANSWER

#4386

SESK.INFO

STRAIGHT FACE
What kind of dog doesn't bark? A hush puppy.

A Rapidly
WHY Alcohol is rapidly absorbed after ingestion and can cause vomiting, diarrhea, incoordination, depression and difficulty breathing. Keep drinks, and food made with alcohol, away from dogs.

DOGS

Why is raw yeast dough a danger if a dog eats it?

- A** It freezes the stomach
- B** It rises and builds gas
- C** It turns into rock

FLIP FOR THE ANSWER

#4387

SESK.INFO

STRAIGHT FACE
Why do dogs run in circles? Because it's hard to run in squares.

B It rises and builds gas
WHY Yeast dough can rise and build up gas in a pet's digestive system. The stomach can bloat and even twist, an emergency. Keep rising dough out of paw reach.

DOGS

The ASPCA warns raw meat and raw eggs can carry bacteria that harm whom?

- A** Only the dog
- B** Only children
- C** Pets and people

FLIP FOR THE ANSWER

#4388

SESK.INFO

STRAIGHT FACE
Why did the egg avoid the dog bowl? It was afraid of being scrambled.

C Pets and people
WHY Raw meat and raw eggs can contain Salmonella and E. coli. These can sicken dogs and the people who handle the food, so wash hands and surfaces.

DOGS

Why does the ASPCA caution against giving dogs bones?

- A** Injury or blockage
- B** They cost too much
- C** They cause fleas

FLIP FOR THE ANSWER

#4389

SESK.INFO

STRAIGHT FACE
What's a dog's favorite instrument? A trombone.

A Injury or blockage
WHY Dogs can hurt their gut or get a blockage when they swallow bones. Ask your vet about safer chews.

DOGS

What can milk and other dairy products cause in many dogs?

- A** A faster heartbeat
- B** Diarrhea
- C** Stronger bones overnight

FLIP FOR THE ANSWER

#4390

SESK.INFO

STRAIGHT FACE
Where won't you find a dog shopping? A flea market.

B Diarrhea
WHY The ASPCA says milk and other dairy-based products can cause diarrhea or other digestive upset. A bowl of water is the safer drink.

DOGS

Fatty foods and some nuts can cause what in some pets, besides vomiting and diarrhea?

- A** Broken teeth
- B** Sunburn
- C** Pancreatitis

FLIP FOR THE ANSWER

#4391

SESK.INFO

STRAIGHT FACE
Why did the dog go to grad school? To become a bark-chitect.

C Pancreatitis
WHY Rich, fatty foods can inflame the pancreas in some pets. That is why table scraps and greasy leftovers are poor treats.

DOGS

Too much salt can make a dog show what?

- A** More thirst and urination
- B** A sleepy nap
- C** Cold paws

FLIP FOR THE ANSWER

#4392

SESK.INFO

STRAIGHT FACE
What do you call a Poodle in the water? A noodle.

A More thirst and urination
WHY Excessive salt intake can produce increased thirst and urination. Salty snacks like chips and pretzels are not good dog treats.

DOGS

The ASPCA says avocado's biggest concern is for which animals?

- A** Dogs and cats
- B** Birds and rabbits
- C** Fish and turtles

FLIP FOR THE ANSWER

#4939

SESK.INFO

STRAIGHT FACE
Which dog breed loves living in the Big Apple? A New Yorkie.

B Birds and rabbits
WHY The ASPCA says the biggest avocado concern is heart damage and death in birds and rabbits. A home with birds or rabbits should keep avocado away from them.

DOGS

A dog food label says 'complete and balanced.' What does the FDA say that means?

- A** It is meant only as an occasional treat
- B** It is meant to be a dog's sole diet
- C** It is meant only for puppies

FLIP FOR THE ANSWER

#4403

SESK.INFO

STRAIGHT FACE
What did the dog say to its teacher when it forgot its homework? My human ate my homework.

B It is meant to be a dog's sole diet
WHY A complete and balanced food is meant to supply all of a pet's nutrition by itself. The nutritional adequacy statement on the label tells you whether it meets that bar.

DOGS

Which is one way a dog food can back up a 'complete and balanced' claim, per the FDA?

- A** Get a signed note from a groomer
- B** Print 'natural' on the front of the bag
- C** Pass a feeding trial using AAFCO procedures

FLIP FOR THE ANSWER

#4404

SESK.INFO

STRAIGHT FACE
What do you get when you cross a dog with a computer? Lots of bytes.

C Pass a feeding trial using AAFCO procedures
WHY A food can make the claim by being formulated to meet a nutrient profile or by passing a feeding trial that follows AAFCO procedures. Either path is allowed.

DOGS

How many meals a day does the ASPCA say puppies 8 to 12 weeks old need?

- A** Four meals
- B** One meal
- C** Two meals

FLIP FOR THE ANSWER

#4405

SESK.INFO

STRAIGHT FACE
What do dogs have that other animals don't have? Puppies.

A Four meals
WHY Young puppies have small stomachs and lots of growing to do, so they eat several small meals a day. The ASPCA says adjust the schedule as the dog grows.

DOGS

Why can pets easily be drawn to drink antifreeze?

- A** It smells like fresh meat
- B** It tastes salty like broth
- C** Ethylene glycol has a sweet taste

FLIP FOR THE ANSWER

#4497

SESK.INFO

STRAIGHT FACE
Why did the Beagle bring a map? Because it didn't want to be a lost hound.

C Ethylene glycol has a sweet taste
WHY The main ingredient in many antifreezes, ethylene glycol, tastes sweet. Pets may lap up spills from garages and driveways, so clean up leaks right away.

DOGS

Which ingredient do pet-safer antifreezes use instead of ethylene glycol?

- A** Propylene glycol
- B** Methanol
- C** Acetone

FLIP FOR THE ANSWER

#4408

SESK.INFO

STRAIGHT FACE
What do you call a dog rock star? A su-paw-star.

A Propylene glycol
WHY Propylene glycol has a much wider margin of safety than ethylene glycol, according to the ASPCA. Still, keep all antifreeze capped and out of reach.

DOGS

You drop a pill on the floor. What does the ASPCA say dogs are notorious for?

- A** Ignoring it
- B** Ingesting it
- C** Burying it

FLIP FOR THE ANSWER

#4499

SESK.INFO

STRAIGHT FACE
When a dog gets a check, what should it do? Make a de-paws-it.

B Ingesting it
WHY The ASPCA says dogs are especially notorious for ingesting dropped pills. Take your own medicine in a safe place away from your pets.

DOGS

Per the AVMA, how much can the temperature inside a parked car rise in just 10 minutes?

- A** About 2 degrees F
- B** About 5 degrees F
- C** Almost 20 degrees F

FLIP FOR THE ANSWER

#4410

SESK.INFO

STRAIGHT FACE
Why did the dog stay out of the sun? So he wouldn't be a hot dog.

C Almost 20 degrees F
WHY A parked car heats up fast, even with the engine off. After an hour the inside can be over 40 degrees hotter than the outside air.

DOGS

Does cracking the windows keep a parked car safe for a dog, per the AVMA?

- A** No, it makes no difference
- B** Yes, if cracked a full inch
- C** Yes, but only in the shade

FLIP FOR THE ANSWER

#4411

SESK.INFO

STRAIGHT FACE
Why was everyone shocked that I let my dog drive my car? They had never seen a dog park before.

A **No, it makes no difference**
WHY Open windows a crack still let the car heat up to dangerous levels. If a dog does not need to come along, leave it at home.

DOGS

Why are flat-faced dogs like Pugs more prone to heatstroke?

- A** They have thinner coats
- B** They cannot pant as effectively
- C** They drink less water

FLIP FOR THE ANSWER

#4412

SESK.INFO

STRAIGHT FACE
What dog can jump higher than a building? Any dog because buildings can't jump.

B **They cannot pant as effectively**
WHY Dogs cool off mainly by panting. A short muzzle makes panting less efficient, so these dogs overheat faster.
