

The AhaBulb Party Game

STUFF EVERY TRAVELER SHOULD KNOW

How to play (30 seconds)

1. The reader reads a card and its three answers out loud.
2. Everyone says "One, two, three, Goldilocks!" and holds up 1, 2, or 3 fingers.
3. The reader flips the card and reads the answer and the Why.
4. Everyone who was right takes a point.
5. The reader reads the joke with a straight face. Anyone laughs or groans? The reader takes a point. Nobody got it right? The reader takes a point.
6. Pass the deck left. Most points when the points run out wins.

What you need

These cards and the point tokens on the last two pages. No tokens? Use coins, buttons, pebbles, or marshmallows. 3 to 10 players, ages 8 and up.

Expert rule: Bet It

Before the reader flips the card, you may put one of your points on your answer. Right: take your normal point plus one extra. Wrong: your bet goes back to the pile. That's it.

Printing

Print single-sided, on cardstock if you have it. Cut on the dashed lines. Each card is a 3.5 x 5 inch index card. The answer half is upside down on purpose, so the table can't peek.

Cards 1 to 50 of 84. More cards and the free daily online game at sesk.info. Built 2026-10-14.

TRAVEL

How can you tell a driver's license is REAL ID compliant?

- A** A silver eagle hologram
- B** The letters RI on the back
- C** A star at the top

FLIP FOR THE ANSWER

#6007

SESK.INFO

STRAIGHT FACE
Why does nobody like the plane? It has a bad attitude.

C A star at the top
WHY REAL ID cards are marked with a star at the top. Adults need a REAL ID, passport, or another acceptable ID to fly in the US.

TRAVEL

Does TSA require children under 18 to show ID when flying with a companion within the US?

- A** No, the companion shows ID
- B** Yes, a school ID
- C** Yes, a birth certificate

FLIP FOR THE ANSWER

#6008

SESK.INFO

STRAIGHT FACE
My kid has no ID but has a boarding pass. The plane has seen worse.

A No, the companion shows ID
WHY TSA does not require children under 18 to show ID when traveling with a companion within the United States. The adult companion needs acceptable ID.

TRAVEL

The EU Entry/Exit System began its progressive start on what date?

- A** 1 January 2025
- B** 12 October 2025
- C** 10 April 2026

FLIP FOR THE ANSWER

#6012

SESK.INFO

STRAIGHT FACE
The airline food made me sick on my way to Germany. It was the wurst.

B 12 October 2025
WHY The European Commission set 12 October 2025 as the start of the progressive rollout. It became fully operational on 10 April 2026.

TRAVEL

The EU Entry/Exit System records which biometric data from non-EU short-stay visitors?

- A** Iris scans only
- B** Voiceprints and handwriting
- C** Fingerprints and facial images

FLIP FOR THE ANSWER

#6013

SESK.INFO

STRAIGHT FACE
Border control scanned my face. It said I looked tired. Fair, I was on a plane.

C Fingerprints and facial images
WHY EES collects name, travel document details, fingerprints, and facial images, plus entry and exit dates. It also logs refusals of entry.

TRAVEL

In the TSA 3-1-1 rule, each liquid container in your carry-on can be how large?

- A** 3.4 ounces (100 ml) or less
- B** 6 ounces (180 ml) or less
- C** 8 ounces (240 ml) or less

FLIP FOR THE ANSWER

#6014

SESK.INFO

STRAIGHT FACE My shampoo is 3.4 ounces. It's the only thing at the airport that fits in.

WHY Each container must be 3.4 ounces or 100 milliliters or less, and all must fit in one quart-sized bag. Larger containers belong in checked bags.

A 3.4 ounces (100 ml) or less

TRAVEL

How many quart-sized bags of carry-on liquids does the TSA 3-1-1 rule allow per traveler?

- A** Two quart-sized bags
- B** One quart-sized bag
- C** One gallon-sized bag

FLIP FOR THE ANSWER

#6015

SESK.INFO

STRAIGHT FACE Why did the flight attendant apologize to the family of elephants? They were only allowed one trunk onboard.

WHY You may bring a single quart-sized bag of liquids, aerosols, gels, creams and pastes. Everything must fit in it.

B One quart-sized bag

TRAVEL

Duty free liquids over 3.4 oz in a sealed bag on an international connection must have a receipt from within how long?

- A** 24 hours
- B** 7 days
- C** 48 hours

FLIP FOR THE ANSWER

#6016

SESK.INFO

STRAIGHT FACE A passenger, in panic, asked if the airplane was going the right way. To which Yoda responded, "Off course, we are."

WHY TSA allows duty free liquids over 3.4 ounces in a tamper-evident bag if bought internationally on a trip with a connecting flight to the US. The receipt must be from within the last 48 hours.

C 48 hours

TRAVEL

With TSA PreCheck, which items can usually stay in your bag at screening?

- A** Laptop and 3-1-1 liquids
- B** Nothing, everything must come out
- C** Only items under one pound

FLIP FOR THE ANSWER

#6017

SESK.INFO

STRAIGHT FACE With PreCheck my laptop stays in the bag. It finally has some privacy.

WHY PreCheck travelers usually leave laptops and 3-1-1 liquids in the bag and keep belts and light jackets on. TSA says no one is guaranteed expedited screening.

A Laptop and 3-1-1 liquids

TRAVEL

Children 17 and under can use PreCheck with a PreCheck adult when what appears?

- A** A kid's passport
- B** PreCheck on the child's boarding pass
- C** A note from school

FLIP FOR THE ANSWER

#6018

SESK.INFO

STRAIGHT FACE
My kid loves the PreCheck line. It's the only line with no snack requests.

B **Precheck on the child's boarding pass**
WHY Kids 17 and under may join a parent's PreCheck lane if PreCheck shows on their boarding pass. That is not guaranteed on every trip.

TRAVEL

At what age do TSA standard screening procedures apply to children?

- A** 13 and older
- B** 10 and older
- C** 16 and older

FLIP FOR THE ANSWER

#6019

SESK.INFO

STRAIGHT FACE
My teen takes off his shoes. And his headphones. Neither goes quietly.

A **13 and older**
WHY Teens 13 and older get standard screening. Younger children get modified procedures, and officers talk to the parent or guardian.

TRAVEL

Can formula or breast milk over 3.4 ounces go in your carry-on?

- A** No, only in checked bags
- B** Yes, tell the officer first
- C** Only with a doctor's note

FLIP FOR THE ANSWER

#6020

SESK.INFO

STRAIGHT FACE
I carried baby formula through security. TSA said the baby was the real cargo.

B **Yes, tell the officer first**
WHY Formula, breast milk and toddler drinks over 3.4 ounces are allowed in carry-on. Tell the officer at the start of screening so they can be screened separately.

TRAVEL

How are strollers and car seats screened at the TSA checkpoint?

- A** Skipped entirely
- B** Dog sniff only
- C** X-ray

FLIP FOR THE ANSWER

#6021

SESK.INFO

STRAIGHT FACE
The stroller went through X-ray. It came out with a new attitude.

C **X-ray**
WHY Strollers, carriers, car seats, and booster seats must be screened by X-ray. If too large, officers inspect them by hand.

TRAVEL

Rechargeable lithium batteries above what capacity are not allowed on passenger aircraft?

- A 160 W h
- B 100 W h
- C 300 W h

FLIP FOR THE ANSWER

WHY Large power banks, power stations and generators above 160 W h are not allowed on passenger planes. Smaller ones must stay with you in the cabin.

SESK.INFO #6022

A 160 W h

TRAVEL

Where must spare lithium batteries and power banks go on an airplane?

- A Checked baggage only
- B In your carry-on only
- C Either one, no limit

FLIP FOR THE ANSWER

B In your carry-on only

WHY Spare lithium batteries, including power banks and portable chargers, must be in carry-on bags. A fire in the cabin can be noticed and handled quickly.

SESK.INFO #6023

STRAIGHT FACE My power bank travels in first class. It's carry-on and proud.

TRAVEL

Rechargeable batteries up to what Wh need no airline approval?

- A 50 W h
- B 160 W h
- C 100 W h

FLIP FOR THE ANSWER

C 100 W h

WHY Batteries rated 0 to 100 W h are allowed on planes. Those rated 101 to 160 W h need airline approval.

SESK.INFO #6024

STRAIGHT FACE I asked my airline for approval. They said it's in the cabin, but not in my budget.

TRAVEL

A 12-volt battery rated at 8 amp hours has how many watt hours?

- A 96 W h
- B 20 W h
- C 150 W h

FLIP FOR THE ANSWER

A 96 W h

WHY Multiply volts by amp hours to get watt hours. For milliamp hours, divide by 1000 first.

SESK.INFO #6025

STRAIGHT FACE I'm a helicopter instructor. It has its ups and downs.

TRAVEL

E-cigarettes and vape devices belong in which type of baggage?

- A** Checked only
- B** Carry-on only
- C** Either one

FLIP FOR THE ANSWER

#6026

SESK.INFO

STRAIGHT FACE
What's the deal with airline food? This is not a joke. I think it's really plane.

B Carry-on only
WHY Vaping devices contain lithium batteries, so they must be in carry-on and protected from damage and short circuit.

TRAVEL

How many spare 101 to 160 Wh lithium batteries may a passenger carry (with airline approval)?

- A** One
- B** Four
- C** Two

FLIP FOR THE ANSWER

#6027

SESK.INFO

STRAIGHT FACE
I only bring two big batteries. The rest stay home and charge their feelings.

C Two
WHY With airline approval, you may carry up to two spare larger lithium-ion batteries rated 101 to 160 Wh. They must be in carry-on and protected from short circuit.

TRAVEL

Can you fly with a damaged or recalled battery that could spark?

- A** No, not unless removed or made safe
- B** Yes, in checked baggage
- C** Yes, in a plastic bag

FLIP FOR THE ANSWER

#6028

SESK.INFO

STRAIGHT FACE
My swollen battery said 'I'm not feeling flighty,' So it stayed home.

A No, not unless removed or made safe
WHY Damaged or recalled batteries likely to create sparks or heat must not be carried aboard, in carry-on or checked bags, unless made safe.

TRAVEL

On a flight, your device or battery starts smoking or swelling. What should you do first?

- A** Put it in the overhead bin
- B** Tell the flight crew right away
- C** Wait until landing

FLIP FOR THE ANSWER

#6029

SESK.INFO

STRAIGHT FACE
I told the crew my phone was hot. They said they'd noticed, I was streaming.

B Tell the flight crew right away
WHY Flight crews are trained to respond to lithium battery fires in the cabin. Passengers should notify them right away.

TRAVEL

Can battery-powered luggage trackers like AirTags go in checked bags?

- A** No, banned from planes
- B** Yes, any battery size
- C** Yes, if the battery is tiny

FLIP FOR THE ANSWER

#6030

SESK.INFO

My tracker knows where my bag is. I just don't know where I am.

STRAIGHT FACE

WHY Bluetooth trackers may go in checked bags if the lithium content is 0.3 grams or less, or the battery is no more than 2.7 Wh.

C Yes, if the battery is tiny

TRAVEL

If an airline cancels your flight, are you entitled to a refund?

- A** Yes, regardless of the reason
- B** Only if bad weather caused it
- C** Only with travel insurance

FLIP FOR THE ANSWER

#6031

SESK.INFO

Why couldn't the fighter jet pilot communicate with his co-pilot? He hadn't broken the sound barrier yet.

STRAIGHT FACE

WHY DOT says you are entitled to a refund when an airline cancels a flight, regardless of the reason. You can decline rebooking, credits and vouchers and still get your money back.

A Yes, regardless of the reason

TRAVEL

CDC says an emergency medical evacuation from a remote place could cost more than how much?

- A** \$1,000
- B** \$100,000
- C** \$10,000

FLIP FOR THE ANSWER

#6039

SESK.INFO

What did the balloon say to the doctor? "I feel light-headed."

STRAIGHT FACE

WHY Flying a sick traveler from a remote area to a good hospital is very costly. That is why CDC suggests medical evacuation insurance for remote trips. It can be bought separately or inside a travel health policy.

B \$100,000

TRAVEL

Long flights can raise the risk of blood clots. How long is a flight CDC flags as raising risk?

- A** Longer than 1 hour
- B** Longer than 12 hours
- C** Longer than 4 hours

FLIP FOR THE ANSWER

#6040

SESK.INFO

What are the Great Plains? The 747, Concorde and F-16i

STRAIGHT FACE

WHY CDC says air travel, especially flights over 4 hours, may raise clot risk. Sitting still lets blood pool in your leg veins. Standing and walking helps.

C Longer than 4 hours

TRAVEL

To make it easier to walk during a long flight, what seat does CDC suggest?

- A** An aisle seat
- B** A window seat
- C** A middle seat

FLIP FOR THE ANSWER

#6041

SESK.INFO

STRAIGHT FACE
Why did the traveler pick the aisle seat? He wanted to take a walk on the wild side!

A An aisle seat
WHY An aisle seat lets you get up without climbing over others. CDC suggests moving around every 2 to 3 hours. Flexing your calf muscles in your seat also helps.

TRAVEL

Does CDC recommend taking aspirin to prevent blood clots on a trip?

- A** Yes, one before every flight
- B** No, it is not recommended
- C** Only on flights over 8 hours

FLIP FOR THE ANSWER

#6042

SESK.INFO

STRAIGHT FACE
Did you hear the one about the germ? Never mind, I do not want to spread it around.

B No, it is not recommended
WHY CDC says aspirin to prevent travel clots is not recommended. If you take it for another reason, check with your doctor. Moving and calf exercises are the simple steps.

TRAVEL

You are flying east across many time zones. Before you go, CDC suggests going to bed...

- A** An hour or two later
- B** At your usual time
- C** An hour or two earlier

FLIP FOR THE ANSWER

#6043

SESK.INFO

STRAIGHT FACE
My body flew east last night. My brain is still waiting at the gate.

C An hour or two earlier
WHY Flying east makes your day shorter, so shift earlier. Flying west is the opposite. Shifting a little before you leave eases jet lag.

TRAVEL

To handle jet lag before an important event, CDC suggests arriving at least how early?

- A** 2 days before
- B** 2 hours before
- C** 10 days before

FLIP FOR THE ANSWER

#6044

SESK.INFO

STRAIGHT FACE
What dog keeps the best time? A watch dog!

A 2 days before
WHY Your body needs time to adjust to the new clock. Arriving at least 2 days early gives that time. Following local sleep and wake times on arrival also helps.

TRAVEL

If you are sleepy in the daytime from jet lag, how long should a nap be, per CDC?

- A** About 3 hours
- B** No more than 15 to 20 minutes
- C** Until you wake naturally

FLIP FOR THE ANSWER

#6045

SESK.INFO

STRAIGHT FACE
Why do you go to bed every night? Because the bed will not come to you!

B No more than 15 to 20 minutes
WHY Short naps take the edge off tiredness without wrecking sleep at night. Long naps can keep you awake after dark. Avoid alcohol and late caffeine too.

TRAVEL

To avoid traveler's diarrhea, CDC says to eat only foods that are...

- A** Cold and prepared ahead
- B** From a buffet
- C** Cooked and served hot

FLIP FOR THE ANSWER

#6046

SESK.INFO

STRAIGHT FACE
Waiter, this food tastes kind of funny. Then why are you not laughing!

C Cooked and served hot
WHY Cooking food hot kills most germs. CDC says to skip food that has been sitting on a buffet, where germs can grow.

TRAVEL

Why does CDC say to avoid ice in places with unsafe tap water?

- A** It may be made from unclean water
- B** It is too cold
- C** It waters down drinks

FLIP FOR THE ANSWER

#6047

SESK.INFO

STRAIGHT FACE
Why did the ice cube stay home? It was afraid of getting into hot water!

A It may be made from unclean water
WHY Ice is usually made from local tap water. Freezing does not make unsafe water safe. Choose sealed drinks and skip the ice.

TRAVEL

The first thing to do for traveler's diarrhea, per CDC, is to...

- A** Stop drinking anything
- B** Drink lots of fluids
- C** Take antibiotics right away

FLIP FOR THE ANSWER

#6048

SESK.INFO

STRAIGHT FACE
What do you give a sick lemon? Lemon aid!

B Drink lots of fluids
WHY Diarrhea drains water from your body, so fluids come first. For serious cases, oral rehydration solution helps. Antibiotics are for severe cases only, as a doctor directs.

TRAVEL

Why are sealed carbonated drinks usually safe abroad, according to CDC?

- A** The bubbles kill all germs
- B** Soda is always boiled
- C** The bubbles show it was sealed at the factory

FLIP FOR THE ANSWER

#6049

SESK.INFO

STRAIGHT FACE
I poured root beer in a square glass. Now I just have beer.

C The bubbles show it was sealed at the factory
WHY Fizz means the drink was sealed at the factory, not refilled. Bubbles do not kill germs, they just show the seal is real.

TRAVEL

Per CDC, raw seafood "cooked" in citrus juice, like ceviche, is...

- A** Still risky to eat abroad
- B** Safe because acid kills germs
- C** Safe if served cold

FLIP FOR THE ANSWER

#6050

SESK.INFO

STRAIGHT FACE
Why did the fisherman put peanut butter into the sea? To go with the jellyfish!

A Still risky to eat abroad
WHY Citrus or vinegar does not reliably kill germs. CDC says to avoid raw meat or seafood, including items "cooked" this way. Choose food that is cooked and steaming hot.

TRAVEL

Why does CDC say not to drink restaurant fountain sodas where tap water is unsafe?

- A** They contain too much sugar
- B** They are always warm
- C** They are made with local tap water

FLIP FOR THE ANSWER

#6051

SESK.INFO

STRAIGHT FACE
How do you make a milk shake? Give it a good scare!

C They are made with local tap water
WHY Fountain soda mixes carbonated water with flavored syrup, and the water most likely came from the restaurant tap. Sealed cans and bottles are safer.

TRAVEL

How long should you boil water to make it safe at normal elevations, per CDC?

- A** 1 minute at a full rolling boil
- B** 10 seconds
- C** 30 minutes

FLIP FOR THE ANSWER

#6052

SESK.INFO

STRAIGHT FACE
RIP to boiling water. You will be mist.

A 1 minute at a full rolling boil
WHY Boiling is the best method to kill germs. Bring it to a full rolling boil for 1 minute. Above 6,500 feet, boil for 3 minutes.

TRAVEL

Most portable water filters on trips remove parasites. What do they NOT reliably remove?

- A** Sand
- B** Viruses and some bacteria
- C** Parasites

FLIP FOR THE ANSWER

#6053

SESK.INFO

STRAIGHT FACE
I have a joke about the flu, but I hope you don't get it.

B **Viruses and some bacteria**
WHY CDC says most portable filters will not remove viruses or all bacteria. Reverse osmosis filters can. Boiling or chemical treatment covers what a filter misses.

TRAVEL

Who should NOT drink water disinfected with iodine, per CDC?

- A** Teenagers
- B** Anyone over 6 feet tall
- C** People who are pregnant or have thyroid problems

FLIP FOR THE ANSWER

#6054

SESK.INFO

STRAIGHT FACE
Why did the tablet go to camp? It wanted to dissolve its problems!

C **People who are pregnant or have thyroid problems**
WHY Iodine can affect the thyroid. CDC says not to use it if pregnant, if you have thyroid problems or an iodine allergy, and not for more than a few weeks.

TRAVEL

Where should you pack your medicines when you fly, per CDC?

- A** In your carry-on bag
- B** In checked luggage only
- C** In a hotel safe

FLIP FOR THE ANSWER

#6055

SESK.INFO

STRAIGHT FACE
Why did the doctor tell the nurses to be quiet near the medicine cabinet? So they don't wake the sleeping pills.

A **In your carry-on bag**
WHY Checked bags can be lost or delayed, and you may need your medicine on the way. Keeping it with you means it travels where you do.

TRAVEL

How should prescription medicines be kept when you travel?

- A** In a pill box with no labels
- B** In original labeled containers
- C** Mixed in one bag

FLIP FOR THE ANSWER

#6056

SESK.INFO

STRAIGHT FACE
What did one tonsil say to the other? Get dressed up, the doctor is taking us out!

B **In original labeled containers**
WHY Original labels show the medicine is really yours, which helps at borders and with doctors abroad. CDC suggests a doctor note for injectables like insulin or EpiPens.

TRAVEL

Crossing time zones, how should you time doses, per CDC?

- A** By local time of day
- B** Whenever you remember
- C** By time since your last dose

FLIP FOR THE ANSWER

#6057

SESK.INFO

STRAIGHT FACE
Where do pianists go for vacation? Florida Keys!

C By time since your last dose
WHY Ask your provider about changes to timing. CDC says to take medicines according to the time since your last dose, not the local clock.

TRAVEL

CDC says about what share of medicines in low and middle income countries are counterfeit?

- A** About 9% to 41%
- B** Under 1%
- C** About 75%

FLIP FOR THE ANSWER

#6058

SESK.INFO

STRAIGHT FACE
Why can you never lie to an X-ray technician? Because they see right through you.

A About 9% to 41%
WHY Studies show about 9% to 41% are counterfeit in these countries. In high-income countries like the US it is under 1%. So bring enough medicine from home.

TRAVEL

If you use both sunscreen and insect repellent, which goes on first?

- A** Repellent first
- B** Sunscreen first
- C** Mix them together

FLIP FOR THE ANSWER

#6059

SESK.INFO

STRAIGHT FACE
Why did the grape put on sunscreen? No raisin.

B Sunscreen first
WHY CDC says apply sunscreen first and insect repellent second. Reapply sunscreen at least every 2 hours and after swimming or heavy sweating.

TRAVEL

Does getting a "base tan" before vacation protect you from the sun?

- A** Yes, fully
- B** Yes, if done in a tanning bed
- C** No, it damages skin and does not protect

FLIP FOR THE ANSWER

#6060

SESK.INFO

STRAIGHT FACE
Whenever I sunbathe, I read a book. It makes me well-red.

C No, it damages skin and does not protect
WHY CDC says a base tan damages your skin and does not protect you on your trip. Use sunscreen, a wide-brim hat and shade at midday instead.

TRAVEL

CDC says a travel mosquito net should be what color and shape?

- A** White and rectangular
- B** Black and round
- C** Green and cone-shaped

FLIP FOR THE ANSWER

#6061

SESK.INFO

STRAIGHT FACE
What is a mosquito's favorite sport? Skin-diving!

A **White and rectangular**
WHY CDC lists a net that is compact, white, rectangular, with 156 holes per square inch and long enough to tuck under the mattress. White makes it easy to spot bugs.

TRAVEL

Where should permethrin products NEVER be applied?

- A** On boots
- B** Directly on skin
- C** On tents

FLIP FOR THE ANSWER

#6062

SESK.INFO

STRAIGHT FACE
How do fleas travel? They itch-hike!

B **Directly on skin**
WHY Permethrin is an insecticide for clothing, boots and gear. CDC says not to use permethrin products directly on skin. Use an EPA-registered repellent on skin.

TRAVEL

CDC says oil of lemon eucalyptus repellents should not be used on children under what age?

- A** 1 year
- B** 10 years
- C** 3 years

FLIP FOR THE ANSWER

#6063

SESK.INFO

STRAIGHT FACE
What has antlers and sucks blood? A moose-quito!

C **3 years**
WHY CDC says not to use OLE or PMD products on children under 3. Adults should spray repellent onto their own hands first, then apply to a child's face.

TRAVEL

At high elevation, what should you do if altitude sickness symptoms get worse while resting?

- A** Go to a lower elevation
- B** Climb higher
- C** Drink alcohol

FLIP FOR THE ANSWER

#6064

SESK.INFO

STRAIGHT FACE
What did one elevator say to the other? I think I'm coming down with something!

A **Go to a lower elevation**
WHY CDC says someone whose symptoms worsen at rest should go lower to avoid getting seriously ill. Mild cases usually pass in a couple days. Do not go higher until symptoms are gone.

TRAVEL

To lessen motion sickness, which seats does CDC suggest?

- A Back of a bus
- B Front of a car or bus, window seat on flights
- C An aisle seat on trains

FLIP FOR THE ANSWER

#6065

SESK.INFO

STRAIGHT FACE
Why did the boat go to the doctor? It felt a bit green at the gills!

B Front of a car or bus, window seat on flights
WHY Facing forward and seeing the horizon helps your eyes and inner ear agree. CDC also suggests lying down or shutting your eyes, sipping water and eating small amounts often.

TRAVEL

If caught in a rip current, which way should you swim first?

- A Straight to shore
- B Straight out to sea
- C Parallel to the shore

FLIP FOR THE ANSWER

#6066

SESK.INFO

STRAIGHT FACE
What did the Pacific Ocean and the Atlantic Ocean say when they met? Nothing. They just waved!

C Parallel to the shore
WHY Rip currents pull you away from shore quickly. CDC says swim parallel to shore until you are free, then swim diagonally back toward shore.
